OSAYAME EGHOSA

Analytics Engineer | SQL · Data Modelling · BI | Remote

Abuja, Nigeria (WAT, UTC+1) • +234 912 262 2586 • eghosa.osayame@yahoo.com

LinkedIn • Portfolio • GitHub • **Remote-ready: 2+ years fully remote, async-first, overlaps EU & US-East hours**

PROFESSIONAL SUMMARY

Analytics Engineer who sits between engineering and analysis: 3 years as a remote data analyst, then 1.5+ years building the pipelines and models analysts rely on. I model data through staging, intermediate and mart layers with tested, documented SQL, enforce data quality with validation frameworks and audits, and ship the dashboards on top in Power BI, Tableau and Looker Studio. Certified Fabric Analytics Engineer and Azure Data Engineer. Comfortable working async across time zones.

SKILLS

- **Modelling:** staging → intermediate → mart layering, dimensional modelling, metric definitions, advanced SQL
- **Quality & docs:** validation frameworks, transformation audits, version-controlled SQL (Git), Confluence documentation
- **Stack:** Google Cloud, Azure (Fabric, Synapse, Data Factory), AWS (Redshift, Glue), PostgreSQL, Python
- **BI:** Power BI (DAX), Tableau, Looker Studio, semantic models
- **Collaboration:** requirements gathering with product/analytics teams, async remote work

PROFESSIONAL EXPERIENCE

Analytics / Data Engineer — Data2Bots *Nov 2025 – Present*

- Build layered data models (staging → intermediate → mart) that power BI dashboards and executive reporting.
- Run ELT on Google Cloud, Azure and AWS from multi-source structured and semi-structured data.
- Lead validation frameworks, transformation audits and standardisation, raising trust in enterprise datasets.
- Turn product and analytics requirements into models; document lineage in Confluence and Miro.

Database Engineer & BI Officer — Havosoft *Feb 2025 – Nov 2025*

- Built ETL and modelled large datasets into analytics-ready tables; delivered Power BI and Tableau reporting for executives.

Data Analyst (Remote) — Mustard Insights *Nov 2021 – Apr 2024*

- Modelled large datasets in SQL and Python and automated Power BI and Tableau dashboards and recurring reporting.
- Produced hundreds of visualisations for economic, investment and health research; monitored data quality.

Data Instructor — Poshem Technologies (Remote) & Abuja Data School *Apr 2024 – Feb 2025*

- Taught SQL, Python, R, Power BI and data modelling to remote learners across Africa; guided end-to-end pipeline projects.
- Led a hands-on Power BI workshop for M&E professionals at the Data Analytics & AI Conference 1.0.

Graduate Intern (NYSC) — National Agency for the Control of AIDS (NACA) *Apr 2021 – Feb 2022*

- Collected, cleaned and visualised national public health programme data; built dashboards tracking campaign performance and health outcomes.

PROJECTS

- **End-to-end Microsoft Fabric project:** Data Factory ingestion → Synapse transformation → Python sentiment analysis → Power BI. View project
- **SQL transformation & monitoring:** automated SQL transformation workflows with Tableau dashboards tracking system metrics.
- **Code:** pipelines and SQL on GitHub.

EDUCATION

BSc Biochemistry — *Landmark University, Kwara State* *2016 – 2020*

CERTIFICATIONS

- Microsoft Certified: Fabric Analytics Engineer Associate
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft Certified: Fabric Data Engineer Associate
- Microsoft Certified: Azure AI SQL Developer Associate (DP-800)
- Google Data Analytics Professional Certificate
- AWS Certified Cloud Practitioner (2025)
- Microsoft Certified: Azure Administrator Associate
- KCNA: Kubernetes and Cloud Native Associate
